

Alternative art challenge

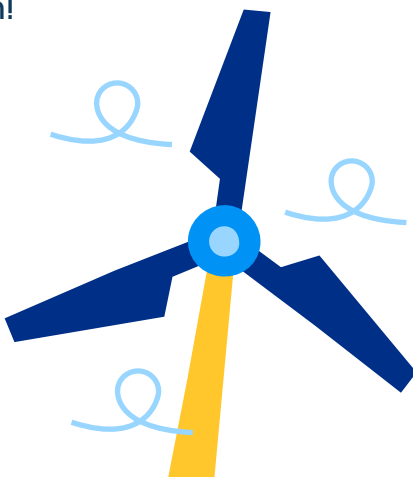

Inspire someone to learn about renewable energy!

Make a poster, booklet, presentation or model to demonstrate the benefits of renewable energy use to someone you know.

Remember, this person may not know anything about renewable energy so make it informative, as well as eye-catching and fun!

You could use the Paris 2024 Olympic and Paralympic Games **renewable energy commitment** case study in your creation.

Create a poster or booklet using recycled newspapers, magazines or leaflets at home!

Make a 3D model of a renewable energy source using things around the house!

Top tips!

This activity can be carried out in school time or as a homework challenge. If sending home, print out with tips for parents from British Gas:

British Gas - Energy saving tips
